Garret:

We received the Area 3 revised RI/FS work plan and the Area 3 supplemental field sampling plan. I am a little confused in that although EPA was planning on reviewing the field sampling plan, we were not planning on reviewing the previously approved work plan. Is there any way you can either provide a redline version or highlight chapters/sections that were revised from the previously approved version. I want to be able to quickly determine what has been changed.

Thanks  
Jim Saric
